PROFILE SUMMARY

I am an undergraduate pursuing a BSc (Hons) in Industrial Information Technology at Uva Wellassa University of Sri Lanka. I have a solid foundation in software development, networking, database systems, and IoT-based solutions. I am familiar with programming and development tools such as Java, Python, JavaScript, MySQL, and GitHub.I am eager to gain industrial experience, improve my technical skills, and contribute to real-world digital solution

EDUCATION

BSc (Hons) in Industrial Information Technology OCT 2022 – PRESENT

Uva Wellassa University of Sri Lanka

Relevant Courseworks : Web Application Development, Web Programming, Software Architecture and Design Patterns, Database Management Systems (SQL), Advanced Database Management Systems, Software Engineering, Human Computer Interaction..

RESEARCH AND PROJECTS

Final Year Research Project NOV 2025 – PRESENT

LoRaWAN-based energy-efficient soil nutrient monitoring system

Technologies - ESP32, LoRaWAN, TCP/IP

- Tested a LoRaWAN-based monitoring system by validating sensor data accuracy and system performance. Designed and executed test scenarios to verify data transmission between ESP32 devices and cloud platform. Identified and documented issues related to network stability and data inconsistencies.

Part-Time Job Offering Platform MAY 2025 – SEP 2025

Technologies - Node.js, React.js ,React Native + Expo, MySQL+Azure, OpenRouter API

- Tested a cross-platform job platform by validating core features such as job matching, real-time chat, and financial transactions. Designed test scenarios to verify system functionality and identify potential issues in user workflows.

Innovation Management System MAY 2024 – OCT 2024

Technologies - HTML, PHP, MYSQL, Bootstrap, JavaScript, Gemini API

- Validated and secured a PHP/MySQL Innovation Platform for accelerated idea-to-market delivery, focusing QA on rigorous testing of Gemini API integration, full CRUD functionality, and complex collaboration workflows.

Task Tracker for Team Collaboration — Web Application JUL 2024 – AUG 2024

Technologies - JSP, Servlets. MySQL . JavaScript. Bootstrap

- Developed a full-stack web app to automate waste collection and task tracking. Designed role-based dashboards for Admin, Driver, and User to manage requests and improve workflow efficiency. Implemented CRUD operations, database integration, and responsive UI for better user experience.

CERTIFICATE

Project Communication and Stakeholder Management — Dec 2025
University of Moratuwa (CODL)

Generative AI for Everyone — Dec 2025
Simplilearn

Introduction to Prompt Engineering with GitHub Copilot — Dec 2025
Simplilearn / Microsoft

Power BI for Beginners — Dec 2025
Simplilearn / Microsoft

Agile Project Management — Nov 2025
University of Moratuwa (CODL)

Introduction to Software Quality Assurance — Nov 2025
University of Moratuwa (CODL)

Responsive Web Design (Advanced) — Jul 2025
LinkedIn Learning

Python: Collections Practice — Jun 2025
LinkedIn Learning

Generative AI Negotiation — Jun 2025
LinkedIn Learning

SKILLS

Technical Skills

- Java
- Node.js
- GitHub
- LoRaWAN
- REST APIs
- Jira (basic)
- Azure
- Scikit-learn (basic)

Soft Skills

- Teamwork and Collaboration
- Critical Thinking
- Leadership and Management
- Great problem solving skill
- Clear Documentation Skills
- Adaptability
- Time Management
- Analytical Thinking

NON-RELATED REFEREES

Ms. Chamalie Ellepola
Senior Lecturer,
Department of Computer Science and Informatics
Uva Wellassa University, Sri Lanka
